5. We do not believe local press aware of visit. If we receive subsequent inquiries based on firm knowledge that visit took place we will confirm call and use guidance set forth State 027132 (i.e., it was for purpose of delivering letter about prisoners and missing Americans) with no further comment.

6. Request guidance in event correspondents, as is more likely, have no firm info re visit but query Embassy whether any further contacts have taken place. We would assume same guidance would apply, but will respond with "no comment" to such inquiries pending Dept's reply.
